Francine B. Magaletti, M.D., F.A.A.P.
Nadia Levinson, M.D., F.A.A.P.

Welcome to Personal Care Pediatrics.
We would like to congratulate you on your new addition to
your family.

Please be advised you must add your newborn to your insurance plan. Our office gives you a 30 day grace period from the date the baby was born. Please remember the insurance company will not automatically add your newborn to your policy please call the insurance company and give them all the information they require.

Once you come in for the baby's one month check up the baby must be on the insurance policy, if the baby still shows not active you will then be responsible for the office visit and all prior office visit and/or hospital charges.

If you have any questions or concerns please feel free to ask a staff member and they will gladly assist you.

Thank you in advance.

Sincerely,

Personal Care Pediatrics
